EASY INTEGRATION
thanks to a compact
installation interface

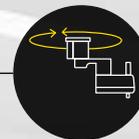

INTEGRATED SERVICES
I/O, 24 DVC, solenoid
valves and air lines prevent
interference contours

700 MM WORKING DIAMETER
and 360° work area for
highest flexibility

**IMPRESSIVE
WEIGHT-TO-LOAD RATIO**
weight 27 kg vs. payload 3 kg

100% WORKSPACE
as no lost space in the
center of the work envelope

Zero footprint SCARA robot for highest flexibility SR-3iA/U

Next level of FANUC SCARA robot line-up

- zero footprint offers maximum flexibility
- no lost space in the center of the work envelope as entire workspace underneath the arm can be utilised (no dead-zone)
- highly suitable for assembly, packaging and material handling operations
- R-30iB Compact Plus controller with minimum space requirements
- web based user interface (*iRProgrammer*) for intuitive and ease-of-use programming via tablet or PC (no *iPendant Touch* required but optional available)
- payload capacity: 3 kg, horizontal reach: 350 mm, vertical reach: 140 mm
- integrated services e.g. I/O, 24 VDC, solenoid valves and air lines in the arm simplify integration and reduce costs
- push-down force up to max. 150 N
