SPEED MEETS PRECISION - IDEALLY SUITED FOR A RANGE OF APPLICATIONS

FANUC SCARA robots are ideally suited to robotic assembly, robotic pick and place, inspection and robotic packaging applications.

Features including IP65 rating, corrosion-resistant bolts and bellows cover all make the SR-12*i*A and SR-20*i*A Environmental Options ideal for secondary food applications.

Featuring a white epoxy coating, IP54, NSF-H1 food-grade grease and anti-rust bolts, the SR-3iA/C, the SR-6iA/C and SR-12iA/C are the ideal choice for tray food and cleanroom applications.

The FANUC SCARA robot line-up features an ultra compact controller and an intuitive web based programming platform for the ultimate combination of versatility and space savings.

R-30iB Compact Plus Controller

- simple setup, easy access and lightweight, compact design
- intelligent features like *i*RVision, *i*RPickTool, conveyor tracking and more are available as built-in option

*i*RProgrammer software

- interface for robot setup, robot jogging and easy teaching and programming
- platform independent: fast browser-based programming via tablet or PC (e.g. Chrome, Safari, etc.)

- not available
